

Tigers Together Commitment to Community Responsibility

The following commitments flow from our aspirations as a community to show kindness toward others and act in ways that respect and protect each other's health and safety. Therefore, we are willing to embrace minor inconveniences when they support the community in which we live.

I am committed to staying healthy and to doing my part to maintain a healthy community.

I understand that in returning to Georgetown amidst the COVID-19 pandemic, I am responsible for my personal health and for the health of those around me. The choices that we all make will allow our campus community to be as safe as possible. I recognize that my actions will make it more likely that we can live together, learn together, and play together.

As a member of the campus community, I recognize that some of those with whom I come in contact may be at serious risk of illness, or may come in contact with others at serious risk of illness, so that my following these protocols carefully may help save someone's life.

By enrolling at Georgetown for the fall 2020 term, I agree to join ALL MEMBERS of the campus community in a commitment to follow these health and safety protocols:

1. **COVID-19 Testing:** All students are required to present evidence of a negative COVID-19 test prior to returning to campus for the start of the semester. Students also agree to participate in ongoing testing as directed through the course of the term.
2. **Contact Tracing:** Students must cooperate with appropriate local health and college officials to assist in contact tracing. Students are expected to answer questions truthfully about where they have been and whom they may have been in contact with during the relevant time.
3. **Quarantine/Isolation:** Students who are infected or known to have been exposed to someone who is infected agree to follow all health directives to quarantine or enter isolation as necessary. When possible, students will quarantine or enter isolation at their own home, but when this is not possible the College will provide a living space where the student must quarantine until they are cleared to return to campus.
4. **Masks:** Masks or face shields of appropriate material are required inside all buildings, in all classrooms, and when students are within six feet of others outside. Masks must be worn correctly covering your mouth and nose.
5. **Social Distancing and Limiting Face-to-Face Interaction:** Everyone is expected to maintain a six-foot distance from other students, faculty, staff, and guests whenever possible. Avoid gathering in large groups.
6. **Daily Health Check:** All students, faculty, and staff will be required to take a daily self-administered health check each day that they are on campus. Failure to complete the health check may result in students being unable to enter the Caf, attend class, or other buildings.
7. **Residential and other policies:** Policies will be adjusted throughout the year based on the recommendations from health and governmental professionals. Some of the policies that will change include visitation, room capacities, and event requirements. Students will be notified of changes via email.

Failure to consistently abide by these expectations puts our community and its members at risk. I understand that I may face disciplinary action up to expulsion if I fail to live up to these community responsibilities.
